Get started with Deskera

Easily Configurable transactions interface

We understand that each business is different. Deskera provides an easily configurable interface, where you can define the label of each field that your user would see while creating an invoice/bill/quote/order.

Connection to Major Southeast Asia Banks

Deskera provides you with connections with the best range of banks through its multiple providers. The rule-based engine recognizes custom-defined rules and reconciles transactions automatically.

Advanced Inventory Tracking*

For SMB's that require product tracking, Deskera provides an extensive feature set - reserve stock, reorder level, batch no/serial number tracking, barcode scanning, bill of materials, multiple warehouses, inventory adjustments/transfers, product variations, multiple unit of measures.

It's E-commerce Enabled

Deskera allows you to connect to multiple Shopify, Woo-commerce, Amazon FBA & FBM stores and streamline your online business in minutes. Inbuilt Shop Builder allows you to build and launch your own webstore with products, inventory and orders synced in real time.

Financial and Other Reports

Deskera gives you the reports you need as a business - View income statement, balance sheet, trial balance, cash flow statement, general ledger and tax reports on your phone or desktop.

Built-In Document Designer

Deskera gives you an incredibly easy-to-use document designing tool with preset templates that can help you to build & send professional-looking invoices to your customers.

Recurring Transaction/Subscription Billing

Deskera's rule engine lets you define the frequency of your recurring subscription. You can also choose to connect to your payment processor to charge the subscription fees and notify the user simultaneously.

Bill Scanning

You no longer need to waste time manually entering invoices into the system; with Deskera, you can scan your invoices and capture the data directly into the system. Scan documents with your phone to record bills, expenses and purchase.

Fixed Assets

Deskera makes it easy for you to record your assets, calculate and post depreciation into your GL Avoid surprises by forecasting the workload, income, and expenses.

Business Super App

Deskera subscription comes with access to first of its kind - fully featured mobile app capable of running most of the business operations from your phone.

Payment Processing

Getting paid by your customers is easier than ever with Deskera. Just select your payment processor while creating an invoice, and your customer will receive a payment link along with it.

Partial Transactions

Deskera gives you the flexibility to create transactions the way your business works - progressive billing, partial billing, partial order fulfillment, partial payments can be recorded in Deskera.

Efficient Order Delivery

Deskera can handle various order processing operations - standard order, dropshipping, backorder processing, pick, pack & ship with integration to shipping carriers. It allows you to print delivery orders, labels, and invoices at the same time.

Local Tax Compliance

Deskera is fully compliant with all local tax regulations needed to run your business smoothly. All you need to do is catalog receipts, invoices, payments, and product sales, while Deskera takes care of compliance and reporting behind the scenes.

Bookkeeper

Invite your bookkeeper for free to Deskera to confirm your accounts before submitting your statutory forms. Deskera comes with an exhaustive list of tools which helps bookkeepers to not only manage their clients but also their practitioners in a easy way.

Built In Integrations

amazon · WOO · shopify · stripe · WISE · PayPal · Pabbly · integromat · zapier · veem

★★★★★

An Amazing Software
This a really an amazing deal. I can get invoicing, accounting and crm application in one software only Just a few days ago, waveapp announced that they will discontinue service outside US. So this software is the one of the best alternative software.

HANIF Y.
Licensed Financial Planner, Financial Services

★★★★★

Very Solid Platform, excited for the future
The UI is beautiful. The development is fast and they are very commited to making this a complete solution for SMBS. You can also manage multiple brands which is sweet. It simplifies complex things as well.

MARCELL C.
Digital Marketing Specialist, Marketing and Advertising

★★★★★

If you just took a bite of a lemon then Deskera will surely sweeten up your morning
Customer satisfaction 100%. UI 100%. Bank reconciliation for my accounts (Xero didn't have my banks) 1000%!!! Really happy :)

ALEXANDER M.
BDM, Computer Software

★★★★★

Deskera will rule in this era
Deskera is so huge in terms of features and uses that it is hard to begin! Deskera gives remarkably more value than the amount you spend. Being a small company, Deskera already provides more than what I need. I am happy that now I can go for a real expansion of my agency. I couldn't be more satisfied with my decision.

AKA R.
Founder, Information Technology and Services

★★★★★

A complete software suite with a very affordable price
Using a complete and modern business suite which has a high degree of compliance with Indonesian requirements without doing any customization is just like a dream come true.

RUBY V.
Chief Executive Officer

Deskera may be the exact solution that you have been looking for your business.
